The first of these is the fact that the
 number of persons who have been
 admitted to the hospital since the
 opening of the new building has
 been very much increased. This
 is due to the fact that the new
 building is much larger and more
 comfortable than the old one, and
 the patients are much better
 cared for. The second fact is that
 the number of persons who have
 been discharged from the hospital
 has also been increased. This is
 due to the fact that the new
 building is much larger and more
 comfortable than the old one, and
 the patients are much better
 cared for. The third fact is that
 the number of persons who have
 been admitted to the hospital since
 the opening of the new building has
 been very much increased. This is
 due to the fact that the new
 building is much larger and more
 comfortable than the old one, and
 the patients are much better
 cared for.

Dear Sirs;

Do you have a Historical Society that could give me any information about the Loyalists who came to Canada in 1812 and settled along the Bay of Quinte, from New York State?

I've read that Indian Tribes came over at that time. The name may be on that list.

My ancestor, John Prosser was 16 years old when he came to Canada from New York State and settled along the Bay of Quinte, in 1812. He married Sarah Willoughby in 1819 and in 1821 they travelled up to Resnick Territory. I'm ~~looking~~ looking for the name of his parents and what country

2

they came from. John was
born in Miami, Florida in 1796,
when Florida was under
British or Spanish rule.

Do you have the names
of the immigrants?

Or do you have a census
for 1813 or 1814 or 1815?

Sincerely,

Marguerite Lehman
